Bruce Lee — Wisdom For The Way

Synopsis

From the greatest modern martial artist of all time, this book is a compilation of proverbs coined by Bruce Lee himself. Touching on martial arts, the universe and life in general, this collection defines the concepts behind both a warrior and a martial artist. Ideal for fans and philosophers alike, this compendium is an attractive, elegant and compact guide to the insight of a legend.

Customer Reviews

This book is so amazing I had a urge for me to come back to and write better review then before. This book has helped me with depression and with getting a lot of my life where it should be. I will not go in to great detail about it but I love this book and carry it around everywhere and read it everyday.

Any one who was ever inspired by Bruce Lee's words should buy this book. It is a well put together little book that has all the old favorite words of wisdom along with many others. It is made up of photos of him throughout his life with one of his sayings on the opposite page. I have had friends who aren't even into martial arts pick it up and couldn't stop reading all the great words of Bruce Lee. Definitely a must buy for any Bruce Lee fan!

I bought the Kindle version and returned it within a few minutes. Sifu (Master) Lee would be appalled at this monstrosity of a book. From the poor layout, which is not scaled properly for an "E" book, to the lack of organization and wrong quotes, this book is not worth even a dollar. Do yourself

a favor and look on the internet for Bruce Lee quotes and photos. What you can assemble in 10 minutes would be better than what is being foisted upon us here! ZERO Stars! Save your money!

This is really for either the hardcore Bruce Lee fan or someone who has an interest in his philosophy but not his martial arts or acting. It's put together in a hardcover binding with nice glossy pages in addition to one of those built-in bookmarks. It's much smaller than I anticipated, it's essentially a pocketbook. The layout and concept is very similar to Lao Tzu's Tao Te Ching for those of you that have read it. There will be one page with a philosophical quote from Bruce Lee, and on the adjacent page there will be either a picture that corresponds with the meaning behind the quote or a picture of Lee himself. Everything in this book has been said by him in an interview, tv series, film, or written down in his notes. If you're an avid fan, chances are none of it will be new, however it is now nicely compiled in one place and makes for some nice light reading when you feel the need to get your mind off of things.

I would like to state that I ordered this book, and it's a wonderful book with useful knowledge and wonderful photographs of Bruce per page. If Bruce Lee ever touched your life in any way- a good introduction (or even continuation/further exploration), of Him would be in this book. This gives a simple yet valuable insight into the psyche, philosophy and wisdom of Bruce Lee. This book proves what an advanced spiritual and intellectual human being Bruce Lee was and what He left us that was larger than the Hollywood Screen. Bruce Lee could as well, I feel, have been anything He wanted. If you ever get this book, you will see just how talented He was in other areas as well, such as being a great artist as displayed in his drawings that are featured in the book. That is something to be proud of, and it's rare someone is this versatile and precise and excellent in all that they do. This is a great keep sake truly compiled in love and to be used with serious contemplation with deep appreciation. Thanks to his daughter Shannon for this as well as the other persons involved in this book. I recommend it greatly for any fan of Bruce Lee and to any person really. I'm glad I ordered this book.

Bruce Lee wasn't just a great martial artist, he was also a great philosopher on life. This book touches on that greatly with inspirational and memorable quotes from him that are wonderful for brightening your perspective on life. It's a small book, but the content is enormous. If you're looking for something inspirational to read for yourself, or as a gift for another, you can't go wrong with this book. It's a wonderful little find.

I gave it as a gift and my friend loved it. It is an ideal gift for a positive person, or a person who needs to up their game. Wisdom sure but a lot of common sense too. I had a quick look before I wrapped it and it and I loved it!! Worth every penny, something you'll enjoy reading!

a nice simple collection of Bruce Lee quotes and observations that can be successfully applied to martial arts study or any facet of living as a human being on earth. Most notably, Lee stripped mysticism from the martial arts and his advice for living and striving are based on objective reality. Enjoy, learn, apply and discover for yourself.
