Synopsis

How to Tell if a Man Wants You for a Lifetime or Only for the Moment
Men don't really have commitment issues. At least, not in the way most women think men do. When a man tells you he has commitment issues, there's a good chance that what he REALLY means is he's not that interested in you and is just using you to pass time with until he meets someone "better." When a man isn't interested in a relationship with you, his commitment issues are nothing more than an excuse to waste your time and reap the benefits of your decision to stay with him in order to see where this thing goes. It's at this point where many women make one of the worse dating decisions possible, as they choose to remain with a half-interested man, hoping that over time they'll be able to lure him into a serious commitment.

The Biggest Reason Why Men Pull Away and Suddenly Lose Interest
Women often wonder why men pull away and lose interest in a blossoming romance without so much as a warning. Though there could be a ton of reasons why a man might pull away, the most common reason for his loss of interest is this: he wasn't THAT interested in you to begin with. In general, even though men are more than able to commit to a woman once certain conditions in their life are met, they will not directly inform you when you're not the right girl for them or that now isn't the right time for them to take a woman seriously. And because men are far more opportunistic when it comes to dating, a lot of guys won't hesitate to take advantage of a dating situation that reaps high rewards (good for him) with as little effort possible (bad for you).

How to Avoid Dating Men Who Will Keep You Unloved and Perpetually Unclaimed
No matter which way you look at it, even though men don't really have commitment issues, they don't find it necessary or in their best interest to inform a woman when she's nothing more than a beautiful distraction, a way to earn the respect of his peers, or just a target to sharpen his seduction skills so that he'll be primed and ready when a "better" woman comes along. This is the ugly truth, but there's hope. In this book, you'll get an inside look at how a man thinks and interacts with a woman when he's not that interested in her. This sort of male behavior is actually easy to spot IF you know what to look for. It's extremely difficult for a man to waste your time and treat you like a short-term plaything without exhibiting certain unmistakable behaviors that clearly communicate that he's trying to keep you interested but unclaimed. Here's what you're going to learn inside:

The seductive language men use when they want to discourage you from wanting a COMMITTED relationship. How quickly learning this ONE thing about him can tell you if he's unequipped to handle a serious relationship. The pattern in a man's dating history that IMMEDIATELY reveals if he's a commitment-phobic time waster. How to avoid being confused by men who might love you tenderly,

but would NEVER make you their girlfriend. How to stop losing sleep wondering 'DOES HE LIKE ME?' and get him to either take you seriously or take a hike! How observing this simple behavior reveals if he thinks you're 'THE ONE' or just 'Some One' to pass time with until he finds his Ms. Right. The relationship red flags for recognizing a DEAD ON ARRIVAL romance so you don't end up wasting your time. How to tell if a man is still secretly IN LOVE with his ex and is only one sad love song away from abandoning YOU for HER. And much, much more... Would You Like to Know More? Get started right away and discover how to tell if a man desperately wants you or if he's just not that into you. Scroll to the top of the page and select the 'buy button' now.

I wish I read this ten years ago. It would have saved me a lot of stress and money spent on therapy. All women should read this book. At least now even though I am in my 30s I can move forward in my life with this valuable information and prevent a lot of accidental suffering. My suffering was all self-inflicted through ignorance. Please read this book and recommend it to others because I lived through some of these scenarios and the way I grew up I did not have guidance nor tools to face men. This author is like the father who helps his daughter navigate the world rather than fear it. I am thankful for his voice.

It just hit the spot! I had been dating this guy who's been giving me mixed signals for the past 3 months. I've been trying to rationalize his actions, now I know better! Now I can move on! Thank you!

Seeing a guy for 3 1/2 months- his job keep him out of town 50% of the time, I was always rationalizing his actions, when in my gut I knew he was just putting in the minimum effort to get maximum benefit for himself. This book really helped me recognize those behaviors, and gave me the confidence to take action to have the "state of the relationship" talk with him, and the courage to accept wherever it goes. I had lots of fun with him, no regrets, but at least I won't expect something that I'm never going to get. I was married for many years and my husband died, leaving me pretty young widow at 50. I have no dating experience, and was making all the wrong moves in my sincerity to please this new man and my budding love for him. Now I can find out if I have a future with him or not, because this book affirmed what I felt in my gut, and gave me lots of tips to avoid potential pitfalls in the future--- because life is too short to waste time with guys who don't value you as much as you value them.

This was extremely insightful and made complete sense. I couldn't stop reading once I started. I think I read the entire thing in about an hour. Unfortunately, I could see a lot of this in past relationships and "relationships". I highly recommend this book for anyone who has a crap history.

I really appreciate this information and insight shared in this book. I am in my early thirties and have very little experience dating. I was always into my education, sports, traveling and my career and was discouraged as a teenager from dating (not necessarily a bad thing). I came close to falling in love once in my entire life and all my experience I've had has pretty much been with the same guy. I found myself nodding in agreement to a lot of what was discussed in this book. I dot want to waste anymore time with a guy who doesn't know what he wants me/or is just using me. The message was very matter of fact and straight forward and not at all cynical or depreciating. I have a greater understanding of what my situation is and will do whatever it takes to put and end to the undesired position I'm in using prayer, meditation, and the knowledge I gained from this book.

This book got right to the point about my boyfriend. All the things that you need to know, but are afraid to ask a friend or a guy about. I was able to call him out on alot of things. Realize that it's

going nowhere fast. And not make the same mistake twice, nor allow things to get stupid again. I was very naive. This book made me wiser. Although it's not a thick book, the contents are to the point and valuable.

I felt like a lot of the content in this book is common scenes, but he approached it in a very "laymen's terms" sort of way. He also provided great advice to prevent your time being wasted. Overall good book that serial daters should read if they're ready for the next step.

Hi, He talks about holding women to a high standard..won't tolerate flaky or disrespect. I don't think he has met "normal" women...can't relate that most women are decent and don't need a scolding. If the guy is a Narcissist/player he may be using women for supply and nothing more...no desire to get to know the real you or your friends/family etc. He describes how the Narcissist operates. It is well written. Women need to learn what narcissism is and not be swept away by charming people who are not really charming underneath. See Youtube videos about Narcissism and Codependency. It is well written.
