# Reflections Of A Man

## Synopsis

Reflections Of A Man is a book designed for both men and women to enhance the quality of their personal relationships. For the women, it encourages you to recognize the true value of your love, to reevaluate your standards and to make the decision that you will no longer settle for anything less than someone who loves you, respects you, and truly makes you happy. For the men, this book will not only encourage you to learn more about the emotional needs of a woman, but it will provide you with clear insight into what a woman truly needs from you, emotionally, to be happy. Through beautiful words of poetry, powerful quotes and advice full of wisdom, Mr. Amari Soul creates a truly enlightening experience for both men and women with Reflections Of A Man. On one hand, women gain a new perspective on the true value of their love, raise their standards and refuse to settle. On the other hand, men become better equipped to, not only understand a woman's emotional needs, but they are better able to meet or exceed their new standards as well.

## Customer Reviews

I've had the pleasure to read this book at 3am and picked it up on my kindle for iPhone and couldn't stop reading . As a women that has been through so much this book has helped me to have an understand of so many things and also is a wonderful outline to get over the pain of the past and

start over . This book is a Healing remedy to a broke heart and helps you to start over and devise a plan and open your heart to love

This is a book for everyone. I have to say if I had this book 13 years ago, it would have changed my outlook on lot of things. My book came 4 days earlier than what it was supposed too and once I got it I couldn't put it down. I recommend this book to everyone who has teenage children, woman and men. It will teach your sons what a woman expects and teaches your daughters what to expect what not to expect and why they expect what they have been expecting! It was very nice to finally put into perspective what I had dealt with for so many years and put a voice and name to it, when I could never express exactly how and what I've been through! Everyone made a big deal outta thinking like a man act like a lady, if you ask me this book is BETTER than that! Because woman can never think like a man and act like a lady. What Mr. Soul does is teach us that it's okay to think like a lady and act like a lady and as a lady why we tolerate what we do and then he goes even further to have you question yourself why you did. Awesome book

Rare is the author who can pen the lyrics of your hearts song and speak through to your soul. Mr. Amari Soul has done exactly that. He has captivated an audience of the masses by speaking of love and relationships. He tells women do not be afraid to love again. But don't settle. Its okay to wait. He lets the gentlemen know what really is on the mind of women and how to love us they way we need to be loved. This is hands down the best love and relationship book I have ever had the pleasure of reading! He even encourages his audience to write their feelings in the book! The difference between a good writer and a great one is if they genuinely believe what they write. Mr. Amari Soul is phenomenal! He writes from his soul, he speaks through is spirit. It is genuine to have someone share their inner most personal thoughts all because he wants to change the world one heart a time. The words he has written speaks an undisputed truth! I have recommended this book and will continue to do so to anyone that has been, is currently or will be in a relationship. Definitely a must read!

The book gave good advice but to me the book seemed to tell me things that I already knew. I liked how he elegantly spoke in the book but I wish his book would have been deeper. The book will be a confidence builder and it will be just like talking to a male friend who speaks words of positivity and encouragement inside of you but to me I would have really appreciated the book more if the writer went into depth with some of the issues that women face with men that really needs to be

addressed. You will not be sorry you bought the book. If you are looking for a positive to the point read for hope and encouragement this is your book. But if you are wounded and looking for advice and scenarios then this is not your book. I probably would not buy this book again but I would recommend this book to women who have done very light dating that just need to be assured to stay on the right track and do not accept less than a man's best in the way that he treats her.

This book is what I would call life changing. In a sense that it dives into all of the thoughts, fears and feelings I have had about love and then explains them in a way that I have never heard. I have struggled with some of my past love experiences to the point that I have ended 2 engagements, countless relationships and now I am a single mother of two. I am trying to discern whether or not my future is full of dinners for one at this point. However I do believe in love and I do believe it just hasn't found its way to me. With this book, I am stronger in my resolve to never ever settle for subpar. Love is real and it is out there. I would rather spend a lifetime loving myself than being miserable with someone who doesn't love me or vice versa. If you are struggling with love whether it's love for yourself, or love from another this book is a must. Thank you.

I bought two copies of this book for my fiancé and I as something we could read together to hopefully reach a level of better understanding of each other and improve communication, since the book was described as such. The book has two parts: "For You" and "For Him" and I am very disappointed women's section. It more applies to a woman selecting a new man and not lowering your standards. Nothing in this section really applies to long term relationship maintenance or improvement at all. I was more satisfied with the men's section which actually gave relationship advice. The overall tone of this book seemed to be directed to young couples, like late teens. A little immature and not what I was looking for.

This book is amazing! As soon as I received it I began reading it. I found myself an hour in and almost half way done. It was so hard to put down, and I did because it was so good I didn't want to finish it in one day. All the things written in this book are hit right on the nail. I learned lessons mentioned in this book not only with men but with any relationship (even friends). But men specifically! Although, these lessons were learned by experience with the "wrong man" it was nice to get clarification to know it was not me who was wrong, but the men. Also, allowing myself to stay in the situation and relationship until I couldn't bare anymore allowed me to understand my true worth and never settle for the "wrong man". Thank you, for this book and reassuring all the woman in this

world that its okay to be strong and not lower your self worth or standards for anyone! Truly inspirational.
