## Customer Reviews

"Skateboard: Book Of Tricks", is an awesome book for beginners or for serious skaters. Anyone who is into skateboarding will love this book. This book is not like the rest of the trick tips books. This book tells and explains how to do new school tricks, old school tricks, and flat land tricks. This book helps an average 'good' skater master a combination of style and unique tricks. Pro skater, Steve Badillo takes you through the steps of mastering these unique tricks. This book improved my skate skills and made me a better skater. I give this book 5 stars out of 5.

I found this book surprisingly useful as I read it. There are tons of photos and they help a ton to explain the different trick walkthroughs. The explanations are clear and simple and can help ANY skater improve on his game. I enjoyed it. Two thumbs up, Caleb[...]

My son didn't find this book helpful at all. He said that he already knew how to do most of the tricks

and even if he didn't, the instructions were not clear enough to be able to learn them.

The book has pictures and descriptions of tricks, however, most of the skaters are not wearing any protective gear. Not even a helmet. I understand that's a personal choice but a book intended to bring young skaters in and teach seems like it should include actually wearing the protective gear not just putting a note in that riders should wear appropriate protective gear. Disappointing.

I bought this book for my 14 year old grandson. He said , "Grandma you finally sent me a book I want to read!!"

I bought this for my son.....he is really into skateboarding. He loves it. He has been through it several times and says it really shows him how to do some of the things he wants to do. Book was a great price for the information.

I like this book because it does give some information about some tricks. It show's some good skateboarding tricks. What i don't like is it doesn't give that many picture.

very nice and my son advised there are a lot of tricks he had not seen before in this book even though he has been skate boarding for years...
