## Synopsis

NOTE: This book will not include access code. The Larson CALCULUS program has a long history of innovation in the calculus market. It has been widely praised by a generation of students and professors for its solid and effective pedagogy that addresses the needs of a broad range of teaching and learning styles and environments. Each title is just one component in a comprehensive calculus course program that carefully integrates and coordinates print, media, and technology products for successful teaching and learning.

LarsonCalculus.com Includes Videos, Examples, and More!

We've created a free website hosting valuable resources. At this website, you can access the following: Proof Videos " Watch co-author Bruce Edwards present theorems and explain their proofs. Calculus Videos " Watch Dana Mosely explain concepts of calculus. Interactive

Examples " Explore examples using Wolfram's free CDF player (plug-in required). Rotatable Graphs " View and rotate three-dimensional graphs using Wolfram's free

CDF player (plug-in required). Biographies " Read biographies of men and women who were instrumental in creating calculus. Web Appendices " Read the web-only appendices that

accompany the text. Data Downloads " Use real data to solve problems. Chapter Openers

Highlight Real-Life Applications of Calculus Each Chapter Opener highlights five real-life

applications of calculus found throughout the chapter. The applications reference the examples or exercises featured. You can find a full listing of the applications in the Index of Applications.

**Remarks Include all Study Tips and Notes** To eliminate any possible confusion, all Study Tips and Notes have been combined into one feature, Remarks. These hints and tips can be used to reinforce or expand upon concepts, help you learn how to study mathematics, caution you about common errors, address special cases, or show alternative or additional steps to a solution of an example.

**Exercise Sets Apply Concepts in Real-Life Situations** The exercise sets have been carefully and extensively examined to ensure they are rigorous, relevant, and cover all topics suggested by our users. The exercises have been reorganized and titled so you can better see the connections between examples and exercises. Multi-step, real-life exercises reinforce problem-solving skills and mastery of concepts by giving you the opportunity to apply the concepts in real-life situations. Putnam Exam questions to push the limits of students' understanding of calculus. Graphing technology exercises for students to make use of a graphing utility to help find solutions.

Enhanced WebAssign Allows You to Learn at Your Own Pace [View larger](#) [View larger](#) [View larger](#) It's not about homework. ...it's about learning. Forget everything you thought about completing math or science assignments. Enhanced WebAssign is not about memorizing formulas. It's about achieving success and gaining a deep understanding of math and science. You get coached. Enhanced WebAssign breaks down math and science problems into small, achievable steps. Using built-in tools, you get the help you need even when you are stuck. Because your instructor tailors Enhanced WebAssign to the course goals, every reading, video, exercise and quiz is there to prepare you for finals. No more exam "surprises"! You get instant feedback. A system of "bonus" and "penalty" points identifies the areas you need to work on. And you're never marked down for entering a differently formatted correct answer. EWA has everything you need. Learning at your own pace, instant grades online, tutorials, videos and practice problems. Enhanced WebAssign helps you learn math and science, not just do homework.
