Customer Reviews

I spent some time in St. Martin recently and made passages to Anguilla, St. Barth's, Saba, and Statia using this book. This guide was essential to the trip. In conjunction with charts, experience, and local knowledge, you could plan a few weeks' cruising. I saw a couple other cruising guides and while good, they don't compare to this one. It's a must have.

Well, there's not much to say, when you have to review THE ONLY guide on the market. Also, by definition, you couldn't say much about the whole book. The region is pretty vast and unless you "live-on-board", there's no way you can say something valuable about the whole book. So, I'll concentrate on my own experience, which is covering Anguilla, St. Martin and St. Barth with its surroundings. I've just returned from St. Martin after a week of sailing and have to admit that despite

a few, obviously "out-of-date" notations, all the info provided in the Guide is quite accurate. As the old motto goes, "don't leave home without it."

Clear, informative, useful photos of harbor entries - its a good compromise for the variety of users of a guide like this. I'm planning a 1 week cruise in the Renaissance Islands and will keep the rest of the guide for future trips!

All I can say is "Don't leave home without it!" The only mistake we made on our two month sail, BVI to St. Lucia, was not following Chris's advice. I know a lot of folks don't like the ads, but we used them visiting several of the advertisers businesses and we were not disappointed. We are getting ready for a 3 month sail this Winter, 2015, and ordered this newer edition and waiting for the latest edition of the Windward. If you going to the Caribbean whether sailing or just vacationing, get these books!

I am planning a 10 week cruise down through the Leeward islands and this guide is just absolutely perfect for the job, thank you very much.
