Customer Reviews

Anyone who wants to know about their spiritual destiny, paths of growth, and inner soul nature is well advised to read this book. It is the number one, most in-depth and to-the-point book about the nodes of the moon that I have ever read in 40 years as a full-time astrological consultant; as well as one of the most useful astrology books ever written, period. It is also an indispensable part of any practicing astrologer's toolkit. It is one of the five or ten books you MUST have. This book clearly spells out the nature of our past life and present life karma as revealed in our nodes (those points where the moon rises and sets, north and south nodes respectively, which revolve backwards around the earth completing one revolution every 18-19 years) -- both from the point of view of what we are overcoming (South Node nature) and what our greatest gifts are yet to be discovered and totally expressed (North Node). The North Node, being the more positive of the pair, is generally to be followed, both by sign and by house position. In other words, be where it is and do what it says and you will prosper enormously. For example I was born with North Node of the Moon in Aquarius in the sixth house; therefore, intellectual, mental, and philosophical teaching (Aquarius) through

dedicated service to others (sixth house, the house of service) is where I give the most, prosper the most, and attain the greatest results in my life. My South Node (which for everyone is always directly opposite the North Node) is in the opposite sign and house of Leo in the twelfth house.
