Customer Reviews

Well worth the read. The author points out that you should read many sources on any subject until you feel that everything is a review and no new material is learned.

easy to read, but informative. Every to the point with no hype. As someone who camps, hikes and spends a lot of time in black bear territory Mors vast knowledge is of great use.

There is a difference between black bears and brown bears, and what we should do as humans. This booklet will explain what to do with a black bear. Cohabitate in safety.

A great book and a must for anyone who spends any time in bear country at all. Should be required reading for a backcountry hiking pass.
