Painkiller (Out Of The Box Book 8)

Synopsis

Sienna Nealon has spent the last several years of her life working for the US government, policing people with powers beyond those of a normal human. Now she's come to the end of her government career, forced out by the powers that be...but not before she's called to Chicago to investigate one final murder. Then another. The deeper she gets into the investigation, the more mysteries Sienna unravels, and the more questions she's left with, until what began with a killing in an alley starts to look like a threat to the entire world...

Customer Reviews

I thought this one was better than the last few I've read in the series, which was a relief. I was getting to the end of my rope there for a while and about to give up on the whole thing. She is much less annoying in this one with her stupid "asides" talking to the reader than in the last book. I thought this one was more interesting (probably because it didn't revolve around Kat and their relationship) and there was more interesting action to the story rather than the repetitive Kat-gets-in-trouble-Sienna-gets-pissed-off-and-saves-the-day deal. I'll actually look forward to

reading the next one rather than wondering if it'll be the last one I'll ever want to read of the series (that is, if he keeps writing them).

I'm still speechless! What an ending to this book! Wow! Rich character developments. Enemies becoming allies?? Great plot...wonderful action...amazing adventure and the introduction to the future of Sienna and her squad. Love references (as usual) to comic heroes, movies, past characters and more. Nicely done!! Sienna and the other metahumans do not disappoint. Glad I got book #9 on 7-12-16. Can't wait to read and continue the adventure. Highly recommend.

One thing I've liked about Sienna is that she's very, very smart. Unfortunately, she seems to make a lot of mistakes in this book and doesn't seem terribly smart to me. For example, if you knew a highly accurate sniper was trying to shoot you and liked to shoot you through windows, wouldn't you, at minimum, stay away from windows whenever possible? So Sienna just seems off her game in this book. Reacting, and not taking control of the situation. That seems very non-Sienna to me. Nonetheless, like the other umpteen books, it's certainly an enjoyable read and as long as the author keeps writing them, I'll keep reading them.

I am waiting on the new book. I did like the first series better, this one is more choppy. The main character isn't featured in every book of the series. Some may like knowing more about some of the sidekicks I wasn't interested in a whole book devoted to them.

I HAVE BEEN reading this series for a while now and enjoyed the different characters you include and use them to intrigue. I will be anticipating the next book and wonder if it will really be the last. Thank you for getting me interested in sci do with Sienna.

Well, I thought it was just going to be the same old Sienna gets in trouble, but I enjoyed the twists and turns. The new characters and their powers were interesting to. I wonder what happened to Scott...

Awesome read!! Keeps you guessing throughout the whole book! I keep thinking there is no way he can keep it original and not write about the same thing over and over but somehow he does! I love every book I have ever read of his!

I was hooked on this series from Book 1. I subscribe to be updated as soon as the new one releases and you will do the same. I read these books every spare moment until they are done and hang off the cliff till the next one releases!
