“Color Me to Sleep” is my second full-size coloring book in this series. I so enjoyed the “Fearless” book that I immediately pre-ordered this book. Of the 80 designs in the book, 23 are what I would categorize as mandalas. There are additionally some designs which utilize a circular form as well as a couple of dream-catchers. The designs in this book are detailed and intricate. Some have small areas to color which may require sharp pencils or pens/markers with ultra-fine points. The book has six chapters, which include: Peaceful Environments, Cozy Comforts, Quiet Getaways, Relaxing Routines, Sleep Scenes, and Fantasies and Dreams. Each chapter has a

lead-in which describes the intent of the designs within. For instance, Peaceful Environments designs has images of the moon, stars, beds and other areas which are conducive to sleep. In Cozy Comforts, designs include scenes and items which make you cozy, such as wool socks, candles, and stuffed animals. The book is followed by an afterward by Alanna McGinn, who is certified sleep educator. She provides tips for getting a good night's sleep as well as what to do when troubled by insomnia. I have had sleep issues for a number of years and have found that a combination of coloring and then following it with reading works well for me to be able to relax enough to get to sleep. I plan to color this book in its entirety (without removing any pages) and using it as a sleepy-time book for my grandchildren to look at when they are over for naptime or overnight. I'll let my grandson choose which page I color next and have it finished by the time he comes to visit again. The pictures are so cute, I am sure children will love it. I think it will become a family book to be handed down for a long time.
