## Synopsis

Although this book can be read as a standalone, it would be best enjoyed as a part of the series. (Adult Content) Demon Chasers | Protectors of humanity. Sworn to uphold the peace. Oath bound to keep the existence of demons a secret. Demon Chaser Gaby has lost her demon. It's left her vulnerable and afraid. Thankfully, a delectable demon wolf is there to save her. After an all-night marathon of sizzling hot sex, Phoenix can't seem to get Gaby out of his mind even though they'd agreed the encounter would be a once-only-no-strings deal. Four long months later, he decides to go after her. Little does he know he's in for the biggest surprise of his life | one that will change him forever | Seeing Phoenix again is the last thing that Gaby expects. Given the circumstances and the annoying fact that she can't get him out of her head, maybe the big wolf coming back into her life isn't the worst thing that could've happened. So much has changed. Will Phoenix be able to handle her once her very bad demon comes back? Especially considering demon wolves are puppies in comparison to skins... ## Customer Reviews

Like the box set this fourth book is quite enjoyable if not deep and meaningful. The characters are all fairly similar but the book is well-written and entertaining. Sometimes it is enough just to watch the mates find each other and close the book. Easy reading!

\*I have not read the rest of the books in this series because I received it in the Masters of the Hunt box set\* Although I haven't read the series as a whole I did find this particular one to be interesting and fun to read. We begin this novella with Gaby who is a breed of demon called a Skin. Skins are surrounded in mystery because they keep to themselves and withhold their secrets. But, Gaby has grown up without her familiars and becomes a DCA agent after she discovers who and what she is. One day Gaby is running an errand and her demon goes dormant for an unknown reason. When Gaby loses her demon self she is all but helpless when a pack of demon bloods come to take advantage of her vulnerability. Just as things begin to get hairy a demon wolf, Phoenix, comes in for the rescue. As this leads to a night of spectacular passion Gaby soon finds out why her demon abandoned her. Four months later Phoenix wants to reconnect with the seductive woman he remembers and finds Gaby in a more 'rotund' state. I find it so adorable that Phoenix would be willing to stick around when he is met with a challenge, while other men would be more likely to run. I really ate up this book, and I may give the other books a whirl.

Totally awesome...this series seems to get better and better as they go on...the box set was great so lol...who's next..Jack, cade, devlin, hope there will be more will keep looking....buy them all u will enjoy...

I have enjoyed this author's writing style. She makes you feel as if you can feel the chemistry between Gaby and Phoenix. I feel in love with them, they made a perfect match. As with all the books in this series, the books were quick fun reads but could have easily been expanded if the author provided more details to Gaby's and Phoenix's past history, including parents and so forth. Along with character development. Yet, I still enjoyed the book, I just wish I could have more from this book because I really enjoyed the main characters.

I received a copy of the anthology this was in exchange for an honest review. This was a sexy,

bloody, vicious story of love, lust, and family. I loved this story. Gaby and Phoenix go through a lot in a short period of time. Really liked how they came together. Also liked how there were other characters and none of them took over the story line even for a short period of time.

I love this whole series. I really liked this book because it was a bit different than the others. Really hot...I really did want to smack Phoenix a couple of times. Gaby didn't want to be an obligation to fulfill and that's how he was treating her for a good while. It was good she made him wait as long as she did so he could understand this. He just wouldn't open up to his feelings. Ugh...MEN! LOL. Great story and very much enjoyed them. Very easy to read and quick. I hope she writes more on this series.
