Blackblood Bear (A Paranormal Shape Shifter Romance) (The Agency Book 2)

Synopsis

He's a half-breed granted the unnatural ability to shapeshift, troubled by the ghosts of those he has killed and hunted by the Agency and its masters, who have finally shown their faces. She's a speed demon, a race-car driver who's lost her job and her father. A search to find the man who gave life to her leads to King City, where a desperate war being waged in the shadows brings her into contact with an impossibly gorgeous shifter. Justin Renne knows this beautiful, curvy woman is different from the others, and her need for speed matches his own in a way he never thought he'd find. But he has unintentionally pulled her into his world of death and brutal warfare with a firsthand introduction that should leave her scarred for life. But Shay Lyon is made of sterner stuff than that. As his fight and her quest become inexorably intertwined, so do the pair and their future. In the end though, she's a human in the midst of a war. Can he protect her from his life of violence, or will she end up as just one more nightmare that haunts him?

Customer Reviews

This book, look all the others, starts at a run and goes flat out from there. The character development continues to grow with each new book, and as the story develops and morphs into its final dimensions I'm glad to see friends from previous stories still growing and taking part. Thanks

for an amazing read, Amelia!

This is the second book in The Agency series. It can be read as a standalone and you don't have to read the earlier book/books in this series about King City or Genesis Valley, but it would be helpful to really understand the complete picture of what is going on. This book has suspense, danger, family, action, adventure, drama, humor, fighting, twists/turns, intrigue, romance, and love. If you remember from book one, The Agency is still operation by killing off shifters to gain blood for some very serious science experiments that they are aiming at producing more of a certain type of serum which will provide regular human's with shifter strength but they will not have the ability to shift. Everyone is determined to bring The Agency down. The Sentinels/Guardians are finding it harder/harder to defeat the Extreme/Enhanced but the feeling are that we have to keep fighting know matter what. Justin Renne is what is know as a blackblood bear. He is a half-breed (the child of half-breed parents) but he does have the ability to shift into his bear form. He is a Sentinel who trained in Genesis Valley to protect those shifters from the Agency. He is a member of the underground and loves scouting around King City on one of the motorcycles. While out scouting, he falls at the feet of his mate.....literally. Shay Lyon is human and has a need for speed. She is an unemployed race car driver and now needs to find something else to keep busy. Hasn't heard from her father in awhile, so she heads to King City . This was the last place that he contacted her from. Finds herself in the middle of a war. Who is this gorgeous male who has almost run her over twice now? Read this amazing story and receive from answers about the Agency but more questions pop up too. I received this book for an honest review. Can't wait to read the next book in this series.

Book 2 of the Agency series, we're now seeing more into what's going on with the Agency, and what it will take to stop them for good. Justin, call sign Charlie, is a Sentinel for the Underground. If you've read book one which you should have before reading book two, you already know about the war between the Underground (shifters) and the Agency (anti-shifter zealots). Justin has a harder time with his position than the rest of the team. He knows what needs to be done and he has the skills to do it, he just doesn't want to have to kill anyone. After an "attack" by an Agency thug, Justin meets Shay. One look into her blue-green eyes and he's lost. Shay, a former pro race car driver, has made her way to King City. She's looking for her father, whom she hasn't heard from in months and is presumed missing. As a human not involved in the war, she has no idea what's brewing between the Underground and the Agency. That doesn't stop her from ending up in the middle of it. Not as many action or sex scenes as the previous book, but it didn't leave the book lacking. This book

embraced the emotional side of it more than book one. The internal dilemma between right and wrong, good and evil. I enjoyed the story, the characters, and of course the drama. Whether it was the fight scenes or the intimate scenes, I liked it all. Overall a highly enjoyable read. I'm looking forward to seeing what Sentinel gets his happy ever after next. Oh and finding out exactly what the mystery behind J truly is. I received a copy of this book in exchange for an honest review.

Another great read by Amelia Jade. Before I read Blackblood Bear, I went back and read Sentinel: Bravo Bear again, just so the characters would be fresh on my mind. In Blackblood Bear, we see more into the set up of the Underground post-Flint and how Maddy is leading their efforts. We reconnect with several characters from Bravo Bear as well as touching base with Genesis Valley. I absolutely love how Amelia Jade continues to build her characters by incorporating old and new information about them in each new book. We reconnect with Ajax and his Arianna as well as Connor and Maddy and the crew we met originally in King City. Instead of focusing only on Shay and Justin, she weaves more of the past characters into the story and we learn little bits and pieces of their lives since their stories and a bit more of their pasts. Instead of taking this Agency spin off and leaving the Genesis Valley books behind, she weaves the two together to create a rich world where the reader *has* to continue reading because she wants to know "what happens next to...(insert character)..." We see new twists and turns in the plot that I did not anticipate and we meet, however briefly, the mysterious Mr. J, who is behind the Agency. I just have to commend Amelia Jade for producing such a rich and complex world that continues to draw me in book after book.

I received this for a honest review. I so love this series and anything to do with Genesis Valley. Don't worry, each book works fine as a standalone. Shay Lyon had the need for speed. She loved to race and love the thrill that the speed gave her. She truly love cars and anything that could go fast. When her world came crashing down and she realized her career as a race car driver was over she went in search for her father. She did not realize the journey this would take her own. Justin Renne loved his bike. He loved working and helping other shifters. He was part of the Sentinel team. He was having some issues with parts of the job and was not sure how to handle what was bothering him. Oh sorry, you will have to read the book to see what was bothering him. Justin knew he was smitten the moment he laid eyes on Shay. He found out she was looking for her father and truly wanted to help. He did not realize this would take him in the heart of the Agent headquarters. There was truly danger all around. This was a great story. One full of love, adventure, hope, and a new

outlook on things. You will fall in love with each and every character. I so can wait see what will happen next in this series.
