# Nash: Trekkers (A SciFi Alien Human Military Romance)

## Synopsis

A Trekker always completes his mission. Since Nash joined the Galactic Alliance as a Trekker his life has purpose. His latest mission? Retrieve a microchip with sensitive information on it. Only, there's an obstacle. The microchip is embedded in the body of a slave. A human one. Who also happens to be beautiful and the woman of his dreams. Now Nash has to decide how to get the microchip, complete the mission, and save the girl. Ellora's life used to be perfect. Living on a small human colony in the outer rim was a good life until the plague wiped out her entire planet. As the only survivor, she was sold into slavery and spent years serving others. She wants out of her dismal existence. But slaves can never escape. But when she meets a Trekker from the Galactic Alliance, suddenly she has hope. The two must figure out the connection between the microchip and the plague or they could lose everything. Including each other. Presenting the Trekkers, a standalone series from Bestselling Authors Terra Wolf and Juno Wells. All stories end with a HEA and no cliffhanger!

## Customer Reviews

Title: Nash: Trekkers Author: Terra Wolf and Juno Wells Designation: A SciFi Alien/Human Military

Romance Novella, Standalone, No Cliffhanger  
Reading Platform: Kindle Unlimited  
My Rating: Three Disappointing Stars\*\*\*  
I very seldom rate a book 3 stars or less since I know the author has put their time, effort and hard work into the story but in all honesty, I would have rated this book two stars had I not truly liked the concept, storyline, and world building for this story. I also truly enjoyed the characters who I felt were unique, intriguing as well as engaging. I was totally smitten with the two protagonists of this story, cocky, half human/half Droqo, alien Trekker Nash and beautiful, strong-willed Ellora who was a true heroine. I was completely in awe of her tenacity and fierce determination to survive, despite the harsh treatment she endured through her life as well as the deplorable conditions in which she was forced to live, She was an exceptionally intelligent young woman forced into slavery against her will. And the sexual chemistry between Nash and Ellora was off the charts hot. If the authors decide to edit and republish this story, I will be more than happy to reread the book and revise my review, but until then, it's a no go for me. As I said, the concept, storyline, and world building were entertaining but the lack of editing completely destroyed the book. I'm usually pretty lenient when it comes to a few mistakes but I'm sorry, I simply cannot praise a book with this many grammatical errors. Poor sentence structure, multiple sentence fragments, missing words, missing articles and prepositions, incorrect modifiers and descriptors, wrong pronoun and verb tense, missing punctuation, overuse of the word that were all present in almost every paragraph.

This is my first book to read by Terra Wolf, but not my first book to read by Juno Wells. There is not doubts as to why a person would want Juno Wells to help write an Alien Romance Novel. Juno is very, very good at it. I will have to say that after reading "Nash: Trekkers" I will definitely look into some more books by Terra Wolf. "Nash" takes you to outer space to worlds that you can only dream about. The book is short and fast past and well written. Terra and Juno grab your attention at the beginning of the book and keep it till the very end. The story line and the character all work into the story line perfectly. There are fights, aliens that half human aliens and nasty aliens, shoot them up, a plague, and SEX!!! What is not to want? This book is recommended for mature readers 18 years of age or older. Nash is a Trekker and he and his comrades always completes their missions. Now that he is a Trekker his life has new meaning. He and his comrade Aevan are sent to the planet surface to find an alien named Lazio about the plague and to retrieve a microchip that may help them find out who started the plague and why? The plague wiped out whole races of aliens and humans. Nash didn't was totally caught off guard when Lazio told him had to take a female human slave that had the microchip imbedded in her body near her heart, and she was the

woman of his dreams as well. Now he needs to know how he can get the microchip, complete his mission, and save the human slave. Ellora is a human slave whose entire planet is wiped out by the plague. Well, all except her!!! Since she was the only survivor she was sold into slavery. She has been serving other people for years and she wants out.
