Handle With Care (Special Delivery Book 3)

Synopsis

Dr. Brooke Campbell has a surprise for her fiancée Tess Sinclair. While Tess has been preoccupied with moving them into a new home, Brooke has been planning a surprise wedding. Nervousness and excitement are in the air as Brooke and Tess look forward to new beginnings. But, merging families has a unique way of bringing back old memories. Brooke and Tess will need to confront issues from their past, old insecurities, and long held feelings of loss. At the same time, they must endeavor to foster a sense of security in Tess's twins, Dani and Davey, as they commit to their life together. Personality conflicts, old misunderstandings, rebellious, nine-year-olds, and personal insecurities remind Brooke and Tess that love is a fragile entity. Moving forward in their life together will require them both to remember that families come with a special label "Handle with Care."

Another great book by this author, in fact the most romantic of not only this series but of her other works as well. Brooke's character really comes to the forefront in this book, yet at the same time Tess' character is not left behind. I can't wait for the next book in this series to see where this

relationship goes now that both Mrs. Campbell-Sinclair are officially married.

Absolutely worth waiting for. Great to see Tess and Brooke continue building their relationship and I felt I was almost with them at the wedding. Can't say too much more without spoiling this great read. Continue the great work JA Armstrong :)

Okay, I love every book in this series! I can't get enough. I feel like a kid on Christmas morning. More, More, More. The characters keep getting better and better. I love reading a book that I can't predict what's going to happen next. Ms. Armstrong does this every time! Keep them coming sister!

Love all this author's writings. Tess and Brooke continue to grow as a couple and a family unit continues to develop. I love the playfulness of the family dynamics and at times laugh along with the characters. The only disappointment I have is that I finished reading it and now have to wait for more.

I know, I always repeat myself when writing a review for a book by J.A. But hey, that's not my fault, they are all amazing. You are immediately drawn to all the characters, especially to Tess and Brooke. They make you feel warm and fuzzy inside. The family dynamic is fantastic and you can feel all the love. Love binds but just like in real life, it is not always smoothly. The double D's, they are amusing and let you laugh out loud. Their dialogues, unbelievable. Again, it is so well written, the pace is excellent and the story pulls you in and engages you. My Valentine day, due to circumstances, didn't become as I had planned but despite this, reading this book made my Valentine day very enjoyable. It was a delight to read.

I am not sure how the author has such an incredible ability to develop wonderful real characters. Interweave them in real life but allow love to overcome all obstacles. Don't get me wrong there are real tragedies they live through but in the end the love they have for each other conquers.

Glad I could escape into Tess & Brooke's world. Hope there's many more to come. Especially Davey's & Dani's teens . Oh boy would that be a story. And!! Will Brooke have Tess's Baby ?? Davey, Dani and Diane if a girl / Douglas a boy?? Gotta stay with t h e D's

I am crazy about this series. I caught myself smiling and laughing, and at times I had tears in my

eyes because of the touching nature of the interaction between the characters. The lovemaking was beautifully written. Can't wait for the next chapter.
