Customer Reviews

Great recipe book on vegan food. Recipes are very original and it is so hard to find a lot of tasty

vegan recipes online. This one has all kinds of awesomnes, from mock chicken to mock beef or tacos. Really enjoyed soup recipes. Made few and it was heaven. Very generous free bonus inside too!

Thanks to the author for this book. I bought for myself a lot of useful information. This is a very large collection of vegan recipes. I had not seen such. I really advise everyone to read this book, because you can not find anywhere else so much information.

Did not know about bistro recipes. I had purchased a vegan book before. It was actually a good book. I found this book to be even better. The directions on the ingredients of the recipes were very easy to read and I was able to put some of these dishes into action. I am trying a new dieting plan but I donâ™t think I will be full vegan. Beefy Veggie Burgers were very tasty and I recommend you to try it. For soups, the butternut soup I enjoyed and I havenâ™t tried a different one yet. I also didnâ™t know about vegan smoothies, so I tried the carrot and ginger one. It takes time getting usedâ to but the benefits are extremely great. A very good book to buy if you are new to the vegan world
