# Paleontology And Geology Of Laetoli: Human Evolution In Context: Volume 2: Fossil Hominins And The Associated Fauna (Vertebrate Paleobiology And Paleoanthropology)

## Synopsis

This volume 2 and its companion volume 1 present the results of new investigations into the geology, paleontology and paleoecology of the early hominin site of Laetoli in northern Tanzania. The site is one of the most important paleontological and paleoanthropological sites in Africa, worldrenowned for the discovery of fossils of the early hominin *Australopithecus afarensis*, as well as remarkable trails of its footprints. The first volume provides new evidence on the geology, geochronology, ecology, ecomorphology and taphonomy of the site. The second volume describes newly discovered fossil hominins from Laetoli, belonging to *Australopithecus afarensis* and *Paranthropus aethiopicus*, and presents detailed information on the systematics and paleobiology of the diverse associated fauna. Together, these contributions provide one of the most comprehensive accounts of a fossil hominin site, and they offer important new insights into the early stages of human evolution and its context.

## Book Information

Series: Vertebrate Paleobiology and Paleoanthropology

Hardcover: 602 pages

Publisher: Springer; 2011 edition (January 21, 2011)

Language: English

ISBN-10: 9048199611

ISBN-13: 978-9048199617

Product Dimensions: 1.2 x 8.2 x 10.8 inches

Shipping Weight: 3.6 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars [See all reviews](#) (1 customer review)

Best Sellers Rank: #4,235,499 in Books (See Top 100 in Books) #83 in [Books > Science & Math > Biological Sciences > Paleontology > Paleobiology](#) #3469 in [Books > Textbooks > Science & Mathematics > Biology & Life Sciences > Ecology](#) #3644 in [Books > Textbooks > Science & Mathematics > Biology & Life Sciences > Zoology](#)

## Customer Reviews

This is an exemplary summation of research on the fauna at Laetoli. It places the hominins in their proper context; as just one component of the fauna found at the site. If you can afford it buy this (and the companion volume); if not lobby your library to buy them.
