Q & A with Ron White

Q: Can anyone improve their memory? A: Yes, I have taught these techniques to a 6 year old and watched her memorize the names of the 44 presidents of the USA literally in just 90 minutes. I have also taught a World War II veteran and he was the star of the class. Some people will learn the techniques and become memory champions. Others will just get better at remembering names

Q: How long does it take to get good at remembering names? A: It depends but what takes the longest is turning names into pictures and getting pictures in your head for common names. It could take a year to turn 500 names into a picture. But this book does that work for you turning 1600 names into pictures

Q: What is it like to compete in the USA Memory Championship and World Memory Championship? A: It is a TON of fun. I wish more people would start doing these tournaments. They are such incredible fun and the people you meet who are pushing their memories are just incredible.

Q: When did you realize you had this special ability? A: I don't have a special ability. Anyone can learn this system. I'm a normal guy who learned a system

Q: What is the most names you have memorized? A: 128 names in 15 minutes at the USA Memory Championships. As a veteran of the military and war in Afghanistan I also memorized all the fallen heroes from the us military. It is over 2,300 names and took me about 10 months.

Q: How many names could the average person remember? A: How about this: Set a goal for yourself to meet and remember 100 new names this year. Sounds like a lot but it

is only 2 a week but just imagine how knowing 100 new people would change your relationships. If I can do 128 names in 15 minutes you can do 100 in 12 months. Oh, for the record you can do 128 in 15 minutes too but you don't believe me now. Get the book and then you will believe me. About the author: Ron White is a 2 time USA Memory Champion. He held the record for the fastest to memorize a deck of cards in the USA for 2 years at 1 minute 27 seconds. He held the record for most numbers memorized in the USA at 167 digits in 5 minutes. He has appeared on National Geographic Channel's Brain Games, Stan Lee's Superhumans, Discover Channel, Fox News, Good Morning America and dozens more tv programs. He is a veteran of the US Navy and served in Afghanistan in 2007. His greatest memory project is memorizing the 2,300+ fallen us military service members from the war in Afghan

## **Customer Reviews**

It's a short book with plenty of photos of faces and a proven technique for remembering the names connected to the faces. I've tried it, and it works for me--a senior, senior citizen with a memory that

has always been substandard.

In 5 easy steps, 2 hours of training and some creative techniques this book taught me valuable lessons that I am using in my daily life. If you struggle with remembering names after business meetings, at conferences, multiple bid meetings or any other situation where you meet a lot of different people and need to remember names this book is the perfect memory tool.

This is without a doubt the best way I have found to remember names. In the first week after receiving this book I have learned 30 men's names and 30 women's names. I find myself looking forward to meeting new people and being able to remember his/her name. **GET THIS BOOK IF YOU WANT TO REMEMBER NAMES AND FACES.**

Ron really knows his stuff! I have always struggled with what I thought to be just a bad memory, but after reading this book I am confident that it was never about my mind not working right. I've put these principles into play and finally started to use my memory to its fullest potential. I can already see it starting to work in my relationships.

The method works. I'm using it to remember names already. Ron comes across as very knowledgeable. Be aware that the majority of this book is a list of possible mnemonics for several names. It's helpful, but I find mnemonics work best when you come up with them yourself. I would have preferred more instruction.

I've had issues remembering names my whole life. I finally a way to solve this problem. The best part of the book are the lists of names and objects that you can anchor your memory to. That would take me hours to create myself but it's included in the book.

Clear easy-to-understand techniques that you can implement today. Ron has spent a lot of time figuring out how to help us create better memories which builds our business. Thanks Ron
